

## Encoder1

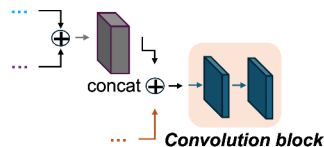

## Encoder2

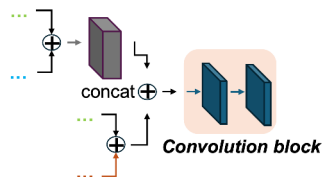

## (a) Convolutional feature with simple addition

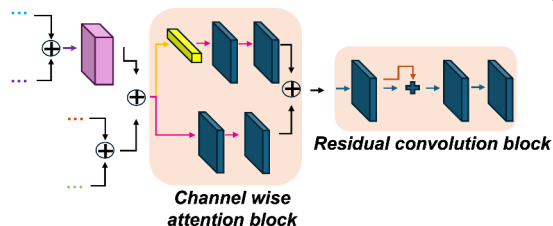

Decoder

## (b) Convolutional & Attentional feature with spatial attention

## (c) Convolutional & Attentional feature with spatial & channel wise attention

- Skip connection
 → 2 x 2 Maxpooling
 → 3 x 3 Strided convolution
 → 3x3 ConvTransposed2d
 → Bilinear Upsampling
- Simple connection
 → 3 x 3 Convolution
 → 1 x 1 Convolution
 → Channel wise Attention
 → Spatial Attention
